FREE PADDLESPORT COACHING

Free coaching/leading is available from the candidates for the following awards on the dates and in the craft listed below. You will need to provide your own boat and equipment and to be of an appropriate paddling level for the environment and boat.

The quality of candidates' coaching and leading can vary markedly though they will never be working unsupervised. You will have the opportunity to work with several candidates during most courses.

If you are keen to take part please let Steve know as soon as possible and he will organise that for you. If you have any questions please get in touch for assistance.

If you would prefer to employ Steve's professional coaching services please let him know. He'll be delighted to help you.

Please check the date of any course you are interested in being a client on with the date on the website. I've cross-checked all the dates but it is possible I've not matched every one correctly. Let me know if you spot any anomalies.

There will be other opportunities in addition to the ones above as extra courses are put on to meet demand. Keep an eye on the website for anything you are interested in or send me an email for updates.
